

Higher Quality • Longer Life • More Power

THE INDUSTRY'S PROVEN CHOICE FOR MOTIVE POWER BATTERY SYSTEMS.

Battery Builders, LLC uses only the highest grades of lead, lead oxide, sulfuric acid, and premium insulating materials to deliver batteries with dependable power, long life, and paired with unmatched customer service. BBI has provided customers with the highest level of quality and service since 1950.

Low antimonial grid design provides the greatest power potential and lowest possible internal resistance factors.

Oversized "Post and Bridge" design delivers reduced resistance factor for cooler operation, enabling batteries to handle the high currents of opportunity and fast charge applications.

Oversized grids deliver rated power capacity and performance throughout the entire life of the battery.

Quality control inspections ensure consistent performance backed by our 5-year warranty, meaning your battery delivers the reliability you expect.

Highest quality plastic and fiberglass materials are used to insulate the positive plate, ensuring an efficient electro-chemical reaction and eliminating internal shorting.

Specializing in industrial batteries, chargers, accessories, and parts, BBI has the power to keep your operations in motion.

BBI batteries are compatible with most forklift brands including the following:

CATERPILLAR
HYSTER
MITSUBISHI
TOYOTA

CLARK
KOMATSU
NISSAN
YALE

CROWN
LINDE
RAYMOND
ZAMBONI

OUR PRODUCT OFFERING

CHARGERS

Light duty, ferro-resonant, and high-frequency designs; conventional, opportunity, and fast charge types; available in both single and three phase; used in single and extended shift operations, BBI can help select the best charger for your application.

WATERING SYSTEMS

Extend the life of your battery with proper maintenance and care, all while lowering your related labor costs. Contact BBI for options on watering systems and electrolyte level indicators along with guidance on a proper maintenance schedule.

UPGRADES and PARTS

Ensure your battery is equipped with the right accessories for optimal performance and extended life. Select from upgrade options on connectors, vent caps, battery monitoring devices, opportunity and fast charge, vented trays, spark-proof (EE rated), and high gravity batteries.

SERVICE and WARRANTY

BBI is known for superb quality and customers rest assured that we stand behind our product. All batteries are subjected to a multi-point quality control inspection process and are backed with a 5-year warranty. When service and routine maintenance is needed, BBI has a network of skilled teams ready to help.

Headquartered in Naperville, IL BBI has been proudly manufacturing industrial batteries for over 50 years. Our nationwide network of dealers serve a wide variety of motive power applications.
